Specification Sheet

CERTA^{PRO}TM Commercial Board

1. PRODUCT NAME

CertaProTM Commercial Board

2. MANUFACTURER

CertainTeed Corporation
P.O. Box 860
Valley Forge, PA 19482-0105
Phone: 610-341-7000
800-233-8990
Fax: 610-341-7571
Website: www.certainteed.com/insulation

3. PRODUCT DESCRIPTION

Basic Use: CertaPro Commercial Board is used where board stiffness properties are

required and also functions as an exterior insulation when covered with a weather barrier. Commercial Board is used in exterior curtain walls, interior walls, floor/ceiling assemblies and as an exterior insulation on HVAC ducts and plenums or in constructions where framing is not present. It is also used as thermal insulation on tanks and vessels.

Benefits: CertaPro Commercial Board provides high sound absorption and excellent thermal performance. This product contains a minimum of 60% recycled content. The product is offered in a variety of stiffness properties from flexible to rigid and all can be easily cut, handled, fabricated and installed. The vapor retarder facing provides

abuse resistance. The ASJ and FSK facings provide vapor retarder performance and a Class A surface that may be left exposed.

Composition and Materials: The product is composed of glass fibers bonded together with a thermoset binder. It is available unfaced or with a foil-scrim-kraft (FSK) or white kraft-scrim-foil (ASJ) facing adhered to the kraft glass board.

Limitations: Insulation should be kept clean and dry at all times.

Sizes: See table to the left. Contact CertainTeed for other sizes and minimum order quantities.

4. TECHNICAL DATA

Applicable Standards

- Model Building Codes:
 - (ICC)
 - New York City MEA 35-79-M
 - California Quality Standards. Reg. No. CA-T024 (PA)
 - City of Los Angeles, RR 8148
- Material Standards:
 - (ASTM C553)
 - (ASTM C612)
 - (CAN/CGSB-51.10-92)

Fire Resistance:

- Fire Hazard Classification:
 - (ASTM E84, UL 723)
 - (CAN/ULC-S102-M88)
 - Max. Flame Spread Index: 25
 - Max. Smoke Developed Index: 50
- Limited Combustible:
 - (NFPA 259)
 - ≤ 3,500 Btu/lb

All/Service/Jacket (ASJ) facing is not available in Type CB 150.

Physical/Chemical Properties:

- Thermal Performance:
 - (ASTM C177 or ASTM C518)
See table on other side.
- Acoustical Performance:
 - (ASTM C423)
See table below.
- Operating Limits:
 - Temperature: (ASTM C411)
Max. 250°F (121°C) (Faced)
Max. 450°F (232°C) (Unfaced)
- Water Vapor Permeance:
 - (ASTM E96, Dessicant Method)
Max. 0.02 perms
(1.15 x 10⁻⁹ g/Pa-s-m²)
(ASJ & FSK Facing)
- Water Vapor Sorption:
 - (ASTM C1104)
≤ 5% by weight

- Corrosiveness: (ASTM C665)
 - Pass
- Fungi Resistance: (ASTM C1338)
 - Pass
- Odor Emission: (ASTM C1304)
 - Pass

Quality Assurance: Many of CertainTeed’s insulation manufacturing plants are registered to ISO 9001-2000 standards.

5. INSTALLATION

Exterior Walls – the faced side of the board should be installed toward the interior side of the structure, except in warm and humid areas where local code regulations may require a vapor retarder to face toward the exterior.

Curtain Walls – CertaPro Commercial Board is applied to spandrel and pre-cast

concrete panels with approved adhesives or mechanical fasteners. Boards may also be installed using hat channels or Z studs. Where a vapor retarder is required, all joints, seams and penetrations shall be sealed. Exterior applications require the insulation to be covered with appropriate weather barrier finish in addition to the factory-applied vapor retarder facing. Choice of finish depends on mechanical abuse, weather exposure, and appearance requirements.

HVAC/Mechanical – All fabrication, application and installation steps should be in accordance with the requirements of the National Commercial and Industrial Installation Standards (current edition) published by the Midwest Insulation Contractors Association (MICA).

These installation recommendations are general in nature. Other methods are acceptable. Please consult your contractor for recommendations best suited to the applications.

6. AVAILABILITY AND COST

Manufactured and sold throughout the United States. For availability and cost, contact your local contractor, distributor or call CertainTeed at (800) 233-8990.

7. WARRANTY

Refer to CertainTeed Limited Warranty for Commercial Insulation (30-25-034). Inasmuch as CertainTeed has no control over the installation design, installation workmanship, accessory materials, or conditions of application, CertainTeed does not warrant the performance or results of any installation containing its products.

8. MAINTENANCE

An inspection and preventative maintenance program for the insulation and vapor retarder system is recommended to ensure optimum performance.

9. TECHNICAL SERVICES

Technical assistance can be obtained either from the local CertainTeed sales representative, or by calling Sales Support Group, (800) 233-8990.

10. FILING SYSTEMS

- CertainTeed Pub. No. 30-25-056
- Additional product information available upon request.
